Special Rules

AP: Targets get -X to Defense rolls when blocking hits.

Blast: Ignores cover, and after resolving other special rules, each hit is multiplied by X, where X is up to as many hits as enemy models in the target unit and within 3" of it. Hits must be split evenly between all enemy units within 3" of any model from the target (defender picks how).

Buccaneer: When this model shoots at enemies over 9" away, it gets +1 to hit rolls.

Buccaneer Boost: If this model has Buccaneer, it always gets +1 to hit rolls from Buccaneer (instead of only when shooting over 9" away).

Caster: Gets X spell tokens at the start of each round, but can't hold more than 6 tokens at once. At any point before attacking, spend as many tokens as the spell's value to try casting one or more spells (only one try per spell). Roll one die, on 4+ resolve the effect on a target in line of sight. Models within 18" in line of sight of the caster's unit may spend any number of spell tokens at the same time before rolling, to give the caster +1/-1 to the roll per token.

Deadly: Assign each wound to one model, and multiply it by X. Hits from Deadly must be resolved first, and these wounds don't carry over to other models if the original target is killed.

Hero: Friendly units within 12" may take morale tests using the hero's Quality, as long as the hero isn't Shaken.

Indirect: Gets -1 to hit rolls when shooting after moving. May target enemies that are not in line of sight as if in line of sight, and ignores cover from sight obstructions.

Relentless: When this model shoots at enemies over 9" away, unmodified results of 6 to hit deal 1 extra hit (only the original hit counts as a 6 for special rules).

Reliable: Attacks at Quality 2+.

Shatter: Against non-Hero units with Tough(3) or more, this weapon/spell gets AP(+2).

Shred: On unmodified results of 1 to block hits, this weapon/spell deals 1 extra wound.

Slow: Moves -2" when using Advance, and -4" when using Rush/Charge.

Swift: This model may ignore the Slow rule.

Tough: This model only rolls to check wound effects once it has taken at least X wounds, and is only Knocked Out on rolls of 5+X or more.

Versatile Reach: When this unit is activated, pick one effect: until the end of the activation all models with this rule in it either get +4" range when shooting, or move +2" when charging.

Campaign Traits

Resilient: Gets +1 to rolls when blocking hits.

Fast Learner: May pick any other trait from the list.

Specialist: Gets +1 to hit rolls in melee or shooting (pick one).

Sky-City Dwarves Army Spells
