Special Rules

AP: Targets get -X to Defense rolls when blocking hits.

Angelic Blessing: When a unit where all models have this rule takes wounds, roll one die for each. On a 6+ it is ignored. If the wounds were from a spell, then they are ignored on a 4+ instead.

Deadly: Assign each wound to one model, and multiply it by X. Hits from Deadly must be resolved first, and these wounds don't carry over to other models if the original target is killed.

Deathstrike(X): If this model is killed in melee, the attacking unit takes X hits.

Fast: Moves +2" when using Advance, and +4" when using Rush/Charge.

Fortified: When units where all models have this rule take hits, those hits count as having AP(-1), to a min. of AP(0).

Fortified Aura: This model and up to 3 friendly units picked before the start of the game get Fortified. If this model is killed, picked models that are deployed lose the rule.

Hero: Friendly units within 12" may take morale tests using the hero's Quality, as long as the hero isn't Shaken.

Impact: Roll X dice when attacking after charging, unless fatigued. For each 2+ the target takes one hit.

Musician: This model and up to 3 friendly units picked before the start of the game moves +1" when using move actions. If this model is killed, picked models that are deployed lose the rule.

Tear: Against non-Hero units with Tough(3) or more, this weapon/spell gets AP(+4).

Thrust: When charging, gets +1 to hit rolls and AP(+1) in melee.

Tough: This model only rolls to check wound effects once it has taken at least X wounds, and is only Knocked Out on rolls of 5+X or more.
